Polyphenylene sulfone (PPSU - ISO 1043), regarding their chemical composition, comply with the requirements of the US regulations Food Contact Notifications (FCN) number 83 of FDA in the "Effective Premarket Notifications (EPN) for Food Contact Substances (FCS) of September 23, 2000.

The applied colour pigments correspond to FDA – Code of **Federal regulations CFR 21, part 178, paragraph 3297**, as well as further specific FDA regulations for incorporated additives.

The quality assurance system of Röchling Sustaplast SE & Co. KG is certified as per DIN EN ISO 9001 and serves as an important basis for the constant composition and quality of **SUSTASON PPSU MG coloured**.

Note:

It is the customer's own responsibility to test the suitability of plastic items manufactured from or with our products for the planned application in the foodstuff industry. That includes for example:

- testing, if the physical characteristics of the plastic are suitable for the planned application,
- testing, if plastic parts manufactured by the customer fulfill the prescribed migration or extraction values,
- testing for possible influence of the plastic on the composition and/or organoleptic characteristics of foodstuffs,

The information above is based on the information provided by our suppliers. We are not liable for completeness and correctness of information contained herein. Existing laws and regulations must be respected by the receivers/users of our products in their own responsibility. This declaration is reevaluated in case of modifications of directives and laws, raw materials, formula, manufacturing procedures or other. In case of modifications, new declarations are published on or website www.roechling.com, earlier declarations automatically become invalid in that case.

This document has been printed automatically and is valid without any signature.
